Summary

I am a User Experience Designer with over eighteen years in digital design. As a User Experience Designer, my in-depth understanding of the design process allows me to meet user goals while balancing aesthetics and technical constraints. I design comprehensive design systems leveraging my extensive background in web design and development.

Professional Experience

KBS

March 2015–November 2017

Associate Director, User Experience

November 2016–November 2017

- Designed a 3D cabinet configurator for *Stanley Black & Decker*. Created a design system, user flows, usability tests, and comprehensive prototypes
- Built a skills matrix for the UX team to help visualize strengths and gaps. Established a *Sketch* and *InVision* workflow to streamline work between the UX, Design, and Development departments
- Led a design discovery to redesign the *PODS* website. Delivered a UX audit, competitive research, personas, journey maps, and usability testing

Senior User Experience Designer

March 2015–November 2016

- I led the responsive redesign of *BMWUSA.com*. Built a modular design system, responsive grid, wireframes, user flows, and prototypes
- Redesigned the sign-up flows for the *My BMW* website. Created wireframes, user flows, interaction and technical documentation, and prototypes
- Designed a learning site for digital marketers at *Hershey*. Conducted user and stakeholder interviews, designed content types, and wireframes

New York University

October 2008–March 2015

User Experience Specialist

Digital Communications Group, Information Technology Services

August 2014–March 2015

- Designed and developed a new responsive user interface for *Sakai*—an open source Learning Management System. I wrote new HTML 5 templates and a Sass-based CSS framework. Incorporated the user experience and user interface improvements from *NYU Classes*
- Redesigned and prototyped a new user interface for NYU's *Email Direct*—a bulk email communication tool for NYU administrators

User Experience Designer

Academic Technology Services, Information Technology Services

October 2011–August 2014

- Redesigned and developed a new user interface for *NYU Classes*—their Learning Management System (LMS). The redesign was based on extensive usability testing and research
- Created a 'Mobile First' prototype for our redesign of *MediaCommons*—a digital network for professors and post-graduate students of film and media studies
- Designed *NYU Stream* a video streaming service built on the *Kaltura* platform
